

GALAXIA MECHANICS

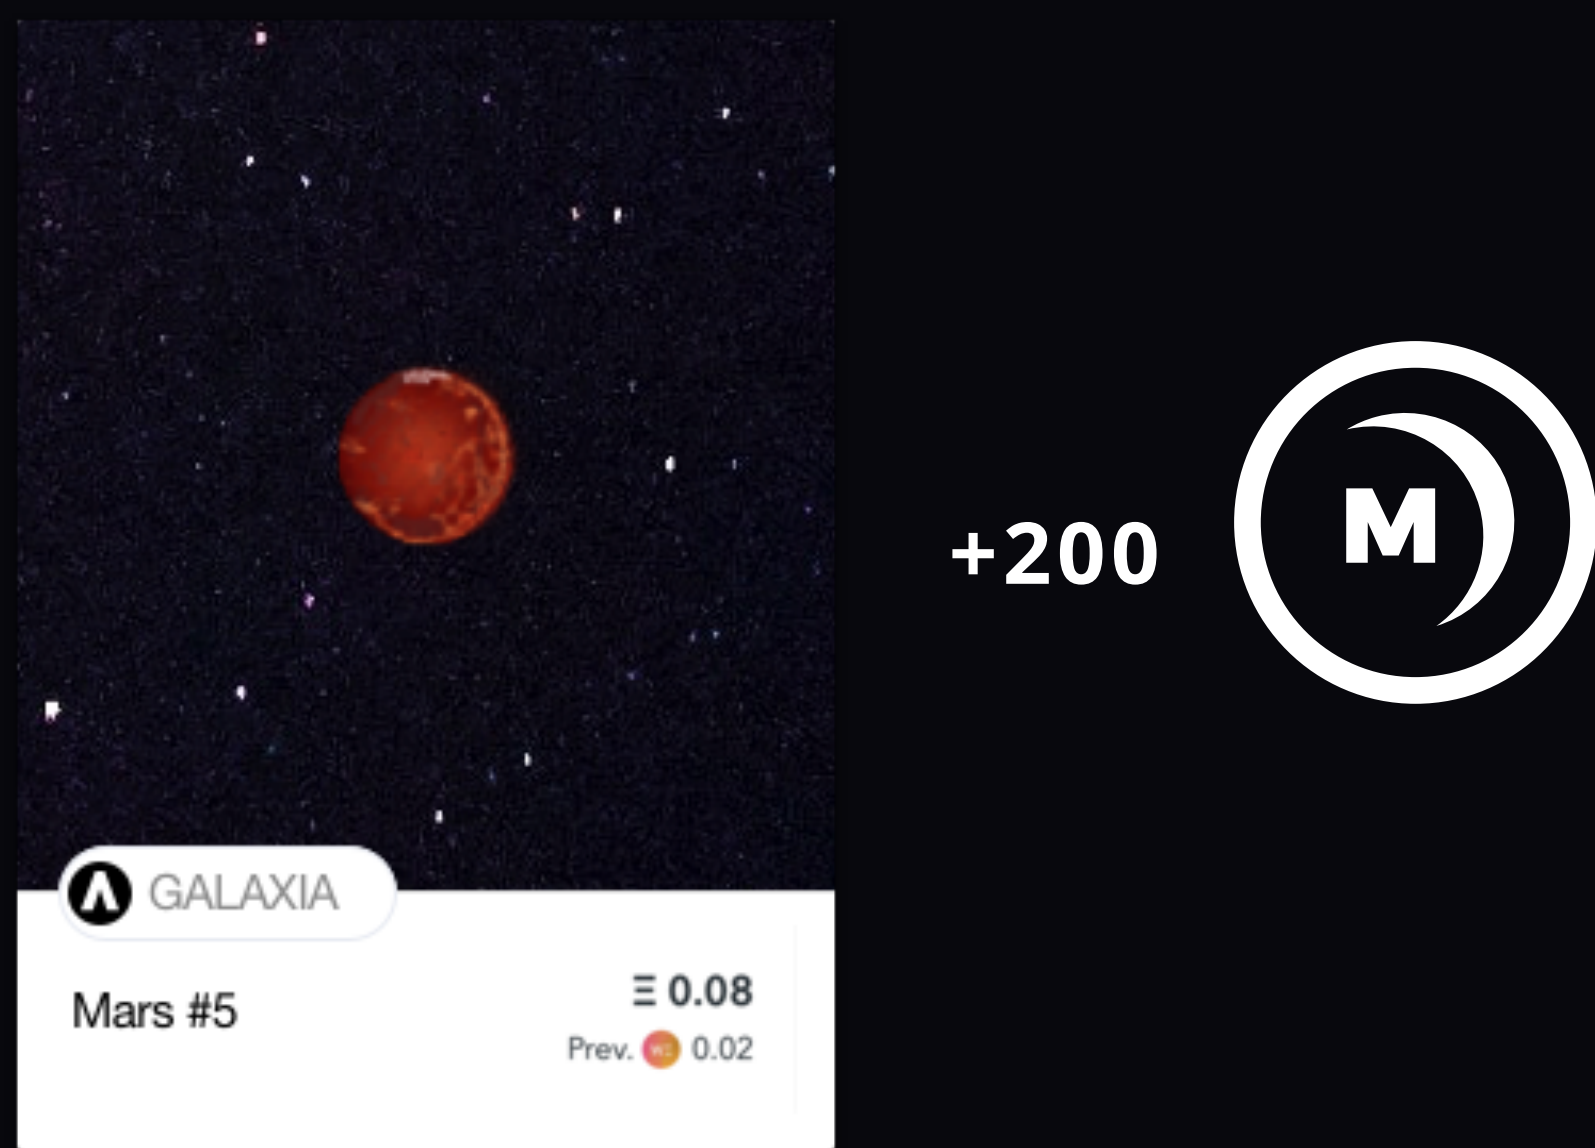

HOW IT COULD WORK:

1: USER BUYS PLANETS ON OPENSEA

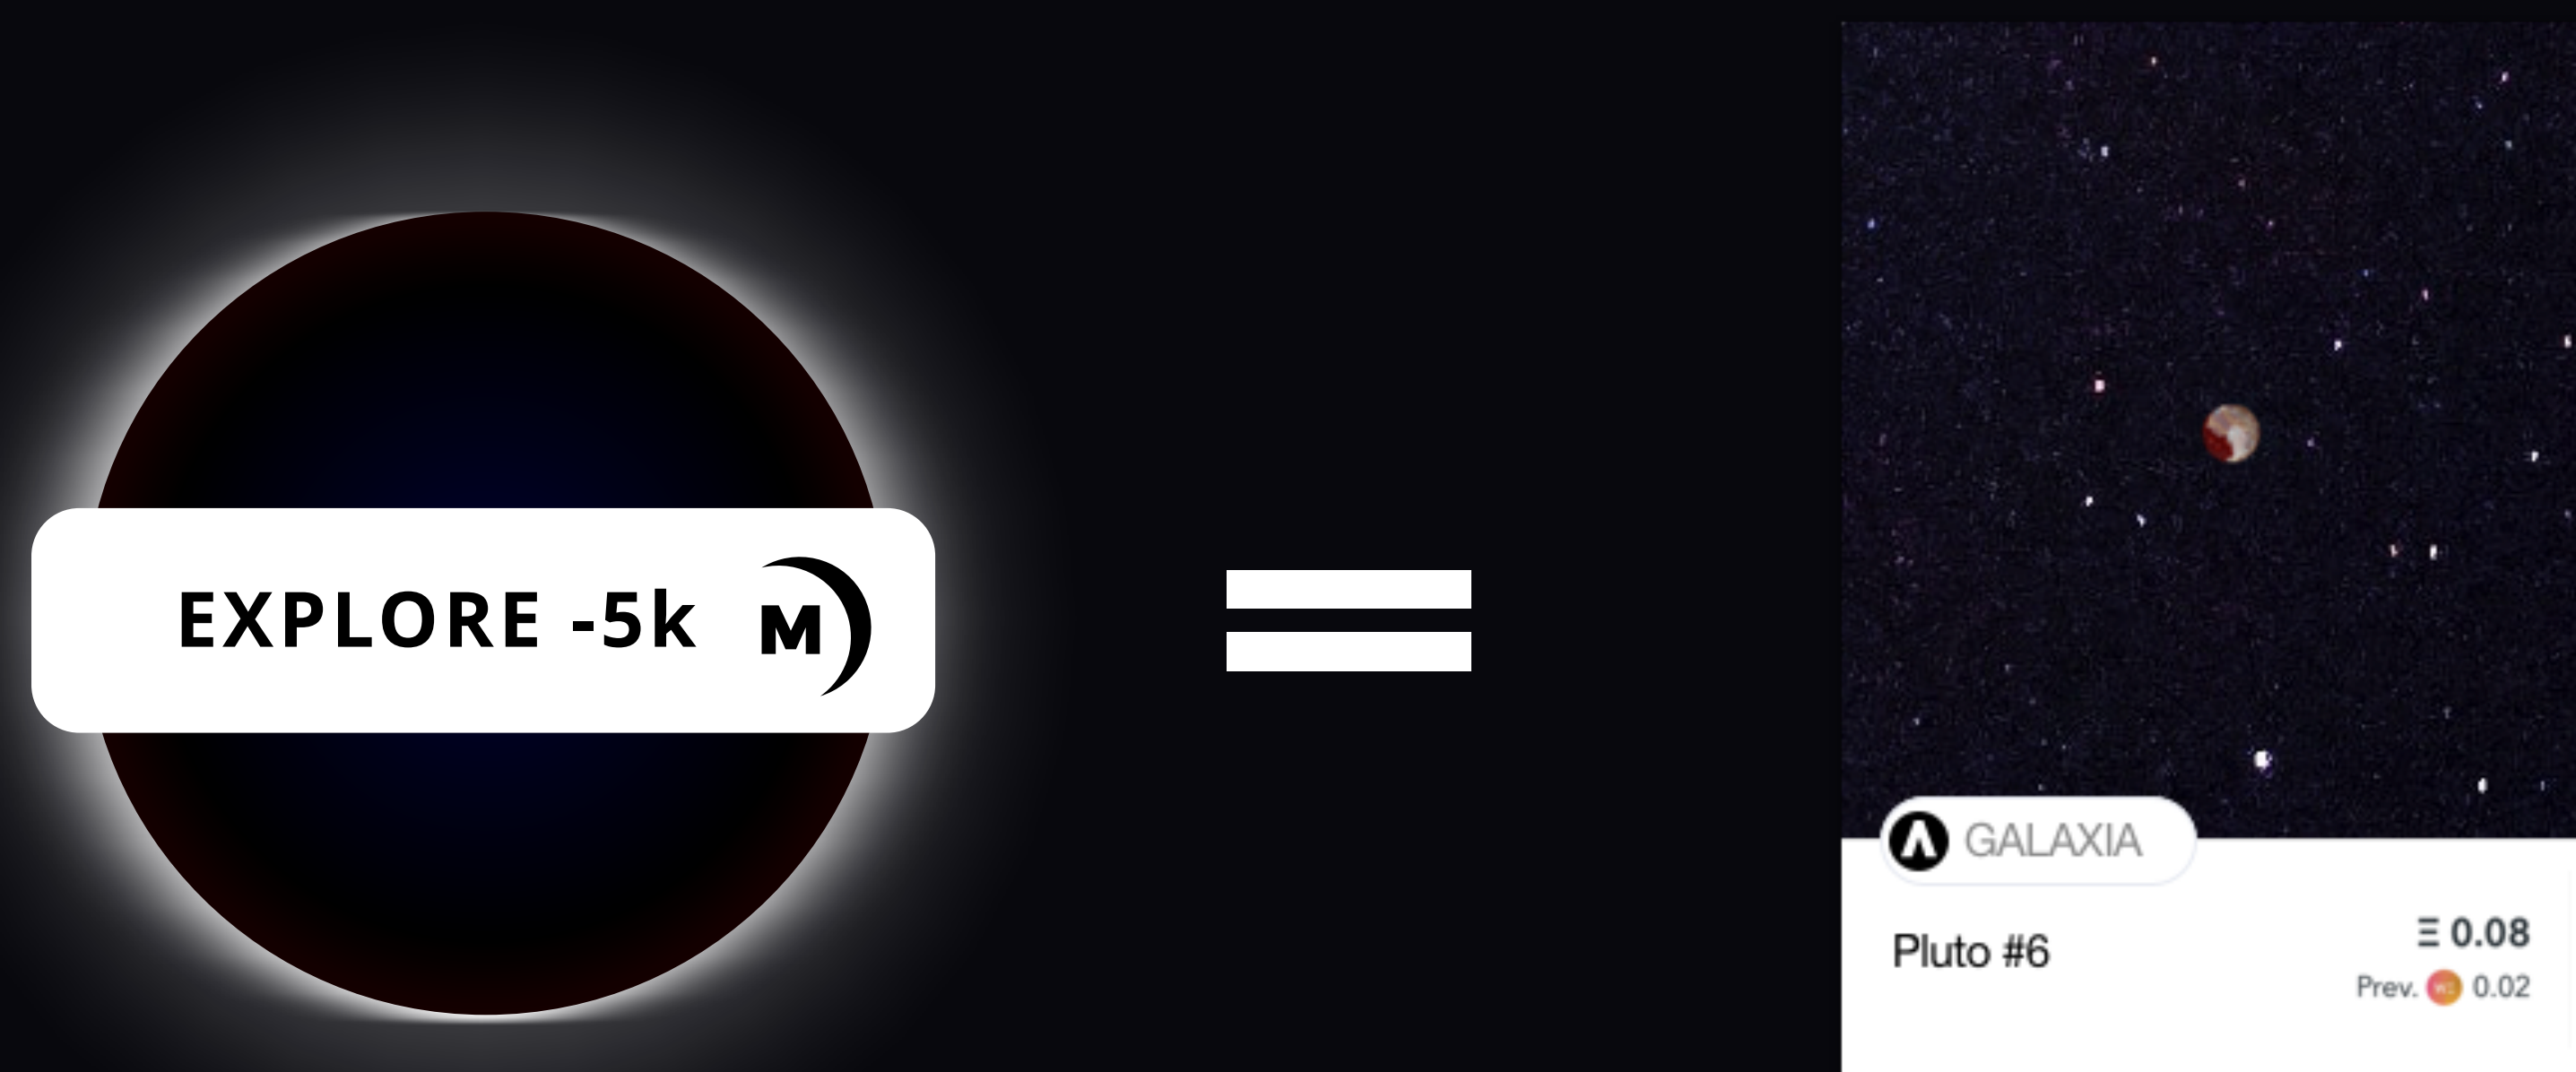

2: PLANETS GENERATE MOON TOKENS (THE IN GAME CURRENCY)

EXAMPLE MARS GENERATES 200 MOON A DAY

3: USERS SPEND MOON TOKENS TO EXPLORE BLACK HOLES AND FIND NEW PLANETS

EXAMPLE USER SPENDS 5000 MOON TOKENS AND FIND PLUTO, MAYBE WE ADD THE CHANCE TO FIND NOTHING

OTHER POSSIBLE FUTURE IDEAS ARE:

- HAVE SOME ASSETS YOU CAN ONLY BUY WITH MOON TOKENS
- UPGRADE PLANETS WITH MOON TOKENS
- ?
- ?

5: USERS CAN BUY CALACTIC CORPORATIONS THAT INCREASE MOON GENERATION FOR ALL HIS PLANETS

EXAMPLE USER BUYS DISTAR CORPORATION THAT GIVES A 25% BONUS TO MOON GENERATION, NOW MARS MAKES 250 NOT 200
